

Smoke-Free Restaurants

The following list of smoke-free restaurants has been provided to help reduce exposure to secondhand smoke. It is our hope that the current list of smoke-free restaurants will continue to grow as the public becomes more aware of the dangers of secondhand smoke.

Henderson County Department of Public Health would like to commend these smoke-free restaurants for helping provide a healthy environment to all patrons and employees.

Please express your thanks to the restaurant managers during your visit.

* Restaurant allows smoking in outdoor dining areas

Secondhand Smoke

Secondhand smoke, also known as **Environmental Tobacco Smoke (ETS)**, is the third leading cause of premature death in the United States. It is estimated that secondhand smoke accounts for as many as 62,000 deaths every year. Secondhand smoke contains over 4,000 chemicals, 60 of which have been shown to cause cancer. Inhaling secondhand smoke can cause lung cancer in nonsmokers and is a serious health risk to children.
